

Somerset County sites offer corporate team-building opportunities

SOMERSET COUNTY - Sites throughout the county offer unique corporate team-building activities that help improve communication and collaboration while providing much-needed downtime. Whether strictly inter-office or with clients, employee outing or conference with a twist, these sites provide opportunities for off-site fun and shared experiences not found in the workplace.

Bonding over sports

In Branchburg, the sprawling Branchburg Sports Complex (BSC) is home to the largest laser tag arena on the East Coast (9,000 square feet on four levels) and host to many corporate team-building events and company outings.

“We can accommodate up to 80 people per laser tag mission so it’s great for corporate events or private parties,” said Lisa Sepulveda, marketing manager. “Our ‘Quest for Success’ is a corporate team-building favorite because it requires strategy, communication and collaboration, and it can be enjoyed by employees of all ages.”

The focus of BSC’s high-energy programs are to engage diverse groups and help them to improve communication, boost employee morale and get to know each other outside the work environment. Many area companies have worked with BSC for years.

Field games, classroom-style games and facilitated team-building challenges are tailored to the needs of each company, with specific exercises that create a stress-free bonding experience. BSC’s private meeting facilities offer high-definition TV, multi-media connections, flexible setup arrangements and catering options for businesses that want to combine a company meeting with an extensive team-building curriculum in one location.
